Dear Mr. Lockyer:

RE: Closure of RCRA Tanks

EPA Identification Number: NYD057722019

This letter is to confirm the receipt of owner/operator and independent professional engineer's certification dated February 23, 1990, of RCRA closure for this facility. We now consider this facility officially closed. Your authority to operate as a Treatment, Storage, and Disposal Facility (TSDF) is terminated.

Please be advised that the United States Environmental Protection Agency has determined that the corrective action provisions of the Hazardous and Solid Waste Amendments (HSWA), Section 3008(h), apply to all TSDF's which have acquired interim status.

The New York State Department of Environmental Conservation has established a program to evaluate the corrective action measures necessary at closed and closing facilities within the State. Once the corrective action provisions of HSWA have been met by the facility or determined not to be necessary at the facility, the facility can have their interim status terminated.
